The collision occurred at 3:10 a.m. According to statements of the crew on train number 5:18 orders had been received to meet train number 5:17 at Samborn. When two miles east of Lamberton the headlight of the westbound train was seen. Engineer T. J. Currey, Wassea, Minn., applied the brakes and jumped with Fireman Klesser. A moment later the engine of 5:17 plowed into the eastbound train which had almost stopped. The spot where the trains met is on an open track to the east is a curve but there are obstructions to the view, according to those who are familiar with the road-bed at that point.

Train Was Late

Train number 516 was 25 minutes late into Tracy and was speeding to make up lost time when it reached Lamberton, that number 517 might not be delayed at Sanborn where the crew in charge of the eastbound train understood the meet was scheduled. Although all members of the crew of train number 516 who were familiar with the orders rewere killed. It is believed that their train was racing at high speed to be on time for the meeting at Lamberton which order, according to the crew of the eastbound train, had been cancelled and a new order is-sued to meet at Sanborn.

#### Prices Are Slashed for H.C.L. Drive

Janesville Bargain Week, the hig campaign to deal a blow to the High Cost of Living, starts tomorrow. Today the Gazette presents to buyers of the city, of the county and in fact the entire southern part of the state, the information which tells where to find slashed prices on everything from a package of pins to household furnishings complete.

Sixteen pages of today's edition have been reserved exclusively by Janesville merchants who are cooperating for the big week. There is meat in every page, in every advertisement. The wise purchaser will govern herself accordingly.

CECIL SEES NEW YORK

June'18.—Well, we did some of the sights today. I had the time of my life. At least I understand what is meant by British control.

I razzled though by no means dazzled Cecil through the winding paths that lead to the Stock Exchange, this morning, and his first remark after seeing the curb market was that he now knew the reason for the average American man passing out before he is sixty, or fifty. That annoyed me a bit, but I said nothing.

Only once did he condescend to twist his head and look up at the tall buildings. Evidently he feit that it was expected of him, and was determined not to give way to any such vulgar curiosity. He seemed best pleased with Trinity churchyard. Said it was so peaceful—that was expected again and way as he force the steengruphers bergan.

He did seem properly impressed by the whizz up the Woolworth tower, and when we finally landed at the top, and that grasplingly wonderful vista of New York and its harbor burst upon us. I heard the unemotional Cecil give a low whistle of amazement, then he actually pinched my arm, and told me it was a gorgeous view—as fine as he had ever seen. Patience is its own reward, after all.

It was a perfect day for my exhibition, fortunately, and we could see for miles around. Cecil was particularly delighted with the view of Broadway as he looked down, and discovered the Genus Home put into its proper place, as it were. Man,

#### C. OF C. TO CHOOSE THREE DIRECTORS

Three new directors of the Chamber of Commerce will be elected in May to succeed those whose terms have expired—F. E. Buss, Joseph M. Connors and Roger G. Cunningham. Each has served for two years. Under the by-laws they are eligible to re-election to terms of three years. The printaries are set for May 18. The list of members of the chamber will soon be mailed to each member. Three will be voted for and the six highest will be balloted on in the finals on May 28. The three receiving the largest totals will be new directors. Tony Martine is in town!
The word was flashed quickly from police headquarters to men on the heats yesterday afternoon and the search for the Italian murderer of 14-year old Maude Lawrence, killed here four years ago, was resumed. Martine was picked up a few minutes later on South Main street by Officers Con. O'Leary and Charles Handy and taken to the police station.

The list of members of the chamber will soon be mailed to each member. Three will be voted for and the six highest will be balloted on in the finals on May 28. The three receiving the largest totals will be new directors.

Be believed that Martine ran south along the railroad tracks, slept in a barn near the interurban sub-station, and made his getaway to Chicago from Beloit the next morning.

A reward of \$300 was offered for his capture. He was from 25 to 30 years of age at the time and worked on the railroad section outfits.

BY FRANK SINCLAIR
Who says Samson hasn't got a

Manager Perring of the Tractors on the showing the team made.

"I was very much impressed with the showing of your ball club and the caliber of your players," says Niesen, whose Pyotr's are considered the fastest industrial team in the Chicago district, "and on the strength of this showing I was pleased to give our fans another treat of two more games. (These will be played at Chi Saturday and Sunday next). Your club, like ourselves, has been handleapped with bad weather."

Chub adds a little advice to his letter, saying:

Where Weakness Exists

"I was very glad to note the showing that your club made against Billy Niesen's nine last Sunday, but you no doubt realize better than I that you are in need of two or three more high grade men to round out a club which will win regularly from the industrial clubs in this section. With the addition of a couple of outfielders of experience, another good infielder, and perhaps another pitcher, you should be all set for the 1920 season.

# SOX LOSE AGAIN;

AMERICAN LEAGUE.

When once they slump, good night. Manager Speaker's great catch of Jackson's drive with two on in the soventh gave the Indians two straight from the White Sox, this time 5 to 4. Kerr was smashed out of the box in the first. Cleveland bunched hits on Wilkinson, who went in as relief.

Darkness settled over Quaker town last right too early to suit the Red Sox and the Athletics and stopped a 14 inning game when it stood at a 7-7 tie. When Jones weakened, only sensational fielding of Foster saved the scalps of the Mackmen. Philadelphia released Pitcher Gibson to Joplin, Pitcher Grievell to the Jersey City Internationals and Catcher John Walker to Akron Internationals.

Blanking Detroit and scoring six runs the St. Louis Browns won yesterday. After pitching great hall for five innings, Leonard snapped and permitted four runs. Alten made the other two runs on a single and a double.

RETURN OF AMERICA'S MOST POPULAR ATTRACTION

The only play on the American stage today that deals with life on

The only play on the Americanstage today that deals with life on the Hawalian Islands,

It was produced eight years ago by Oliver Morosco. The story is by Richard Walton Tully, the author of "The Rose of the Rancho," "Ontar, the Tentimaker," and "The Fiam," his latest effort. Mr. Tully lived for many years on the islands, and in "The Bird of Paradise," he has brought his audience in close touch with matters pertaining to them just before the annexation. He tells a story of love and intrigue, and although he brings the note of tragedy into the life of, the little Hawalian girl, Luana, who makes her mistake like many others of her sisters before her, yet redeems her error by her own self-sacrifice, also he shows many flashes of humor both native and American.

many flashes of humor both native and American.

Laurette Taylor, Bessic Barriscale, Lenore Ulrich, Carlotta Monterey and Muriel Starr have been seen as Luans, and Mr. Morosco will now offer Miss Ann Reader, his most recent "find," whose personality and talent fit her admirably for this famous role. She is considered the equal to any who have been seen in the part before. She is surrounded with a carefully selected cast of over twenty acting people, including a quintette of native Hawaiian singers and players, whose music is one of the chief charms of the piece. The stage setting is lavish in the tropical settings and colorings, especially the last act showing Mt. Kilauea, Hawaii's dreaded volcano in violent eruption.

#### The Roadster, Too, Has All the Noted Essex Qualities Speed—Power—Endurance—Economy—Utility. It is an Ideal Car for Business as Well as Pleasure things have been shown in the hands of more than 25,000 owners.

It was more dramatically proved on the Cincinnati speedway, when an Essex stock chassis set the world's long distance endurance record of 3,037 miles in 50 hours. The same car, in three separate tests, traveled 5,870 miles at an average speed above a mile a minute. Another stock Essex set the world's 24-hour road mark of 1,061 miles over snow-

covered Iowa roads. It is specially suited for salesmen, inspectors and others who must cover wide territory, quickly and frequently. Though not large, the Essex is commodious. There is plenty of room for passengers, and special arrangements for carrying sample cases, unseen, and even a trunk if desired.

city officials feel they have scored a new victory in the campaign toward prevention of fast and reckless auto driving, through the decision given by Judge Maxfield in the case of the City vs. Edward Wandel and Charles Williams, originally charged with speeding on South Franklin street.

Each was fined \$15 and costs, or a total of \$18.37, by Judge Maxfield yenterday afternoon after attorneys had made their final arguments. Fines were assessed after the judge had granted City Attorney Roger G. Cunningham's motion to amend the complaint from speeding, to driving curelessly and at a rate of speed too great for width and traffic of the street. Both fines were paid.

In his argument yesterday afternoon, Charles Enslow, defendants attorney, made a strong plea for release of the boys, declaring testimony showed they had not gone more than 15 miles per hour. He hinted that others were speeding constantly, but that yellow cab drivers were being made the "goats" for speeding charges. In testimony yesterday morning, two witnesses testified Willams and Wandel were

speeding charges. In testimony yesterday morning, two witnesses testined Williams and Wandel were traveling from 30 to 35 miles per hour, while four said they were going under 15.

Tribute to Mrs. Wilmarth
In the notice of the death of Mrs.
James C. Wilmarth, who was buried in Oak Hill cemetery last Friday, the Ei Paso Herald pays the following kindly tribute to her memory:

"Many will mouen for her and many will keep always in their minds the memory of an unfailing friendship. Mrs. Wilmarth had lived here 20 years, having come soon after her marriage. For a time Mr. and Mrs. Wilmarth lived on the Porcher ranch down the valley, but when Mr. Wilmarth became manager of The Herald he built the home on Upson avanue which for 18 years has been the center of Mrs. Wilmarth's life.

Here she gathered about her a circle of devoted friends who went to her with flowers and books, their griefs or their joys, sure of the sympathy that quickens, the appreclation that makes life golden. She loved all of life and her brave spirit never faltered to the end, yet in perfect faith she faced the great adventure. There was no twillight, but only dawn."

Mr. Wilmarth who came east to attend the funeral of Mrs. Wilmarth will return to El Paso on Friday.

of very reckless persons.

"But" he continued, "I am glad to say that the sky is once more clear. So far as I can see everyone is satisfied at what happened at San Re-

isried at what happened at San Remo."

Mr. Lloyd George said that there had been no difference of opinion between the alties as to the enforcement of the treaty. A misunderstanding arise, declared, over the question as to who should put down the disturbance in the Ruhr district; which threatened the peace not only of Germany, but of Europe. The French thought it ought to be suppressed by the allies, he asserted, but all the others believed it should be left to the Germans. This difference had been settled, he said, and the Germans informed that the moment the German troops in the Ruhr were reduced to the proportions fixed by the allies as August, the French troops would be withdrawn from Frankfort and Darmstadt.

The premier asserted that the misunderstanding of France concerning Great Eritain's intentions regarding revision of the treaty had been removed. Great Britain had also made it clear, he continued, that she would not sanction any policy of annexation by France in Germany.

Superior and Duluth grain shippers are calling attention to the penalty of 2 cents a bushel put on grain shipped from Lake Superior ports as way and by Lake Michigan and transferred at Buffalo. The chamber of commerce of these two important shipping ports are joining in a memorial to both congress and the interstate commission concerning this discrimination,

Certainly Senator Johnson who has made no to the league manages to polt as considerable a vote even in castern states as he did in the middle vote even in castern states as he did in the middle west and far west. The conclusion drawn here is that either the Johnson personality which made itself so effective force in California, is impressing itself upon the voters with Roesevellian magnetism or that those elements in the Anisogen itself so effective force in Cathorian, is impressive tiself upon the votors with Rossovellian magnetism or that those elements in the American electorate who feel keenly about article ten are taking this apportunity to express their appreciation to Hiram Johnson for his aggressive fight in their behalf. Nobody who knows Johnson well would accuse him of going out deliberately to corral the vote of the Irish sympathizers who The Chippewa Falls Herald reports that a car of sugar arrived in that city and was offered to johbers at 28 cents a pound. Public Forum Urged

The advantage of a public forum where people of all views may gather and discuss local problems is urged. The false theory will fall in such a forum when confronted by the truth. In many towns, notably Middletown, Ohio, these joint discussions have become a part of the community life. The present drift of the chamber of commerce is away from the idea that only the business people are interested in it., In Ellis, Kansus, for instance, the hody which studies the municipal problems is known as the Community chef. It had its inception among working men in railway shops. In Sandusky, Ohio, certain industries have asked their employs to elect members of the chamber of commerce. The industries pay their dues. In Waterloe, Iowa, the local labor unions elect members to the chamber of commerce and the unions pay their dues.

The tendency is toward more efincuring interest that there be written incution of crops, for if only wheat is raised and the crop fails, there is nothing upon which to fall back. The community should take thought of the product of its land.

The labor problem

The labor problem is important locally as it is nationally. If there is not labor at harvest time the farmer is discouraged from planting crops. The community organization should solve the problem of seasonal labor, it has done so in many cummunities. There are towns in the west where stores, banks, all municipal activities, are suspended during the harvest season and all hands go into the fields. So production is kept up. yourself and Claire," I urged. yourself and Claire," I urged. "Let yourself down to your flat and pry open the door. Hold her steady—go slow—count the doors and don't miss yours," I whispered as a parting warning, and he began his descent. At that moment I caught the sound of the elevator coming up—it might or might not be the detective, but I took no risks. Leaving the dumb walter door just as the Unknown had left it, I slipped softly to the kitchen door, closed and locked he kitchen door, closed and locked t and put up the chain-bolt again. To the casual eye the kitchen was as

it had been five minutes before, untouched, unopened.

As I stepped into the dining room the front bell rang long and loud. As I stepped into the dining room the front bell rang long and loud.

I let it ring and ring again, and heard a voice, "Yes—she's there."

The fourth ring was followed by the pounding of a heavy hand.

I had been listening to the dumb waiter and it had now stopped. I thought it safe to make a move on my side, so I walked noisily along the hall and called through the door, "Who's there?"

"Police officer. Open the door, please."

please."
"What precinct?"

"What precinct?"

There was a grunt before he answered, "Thirty-six."

"Oh, all right!" I opened the door on the chain-bolt.

There stood a broad-shouldered "one of the finest." and off, to one side of him, looking very pale and insignificant, my detective.

"Oh, it's you!" I exclaimed affably, addressing the offileer and taking no notice of the detective.

"If ye'll open the door—" he suggested very politely.

"With pleasure," and I took off the chain-bolt and threw the door wide open.

He went back to the bedroom-

He went back to the bedroom—casting a glance at the kitchen door as he passed, which was chain-bolted as Td told him it was—and looked under the bed. After that he peered into the bathroom and returned for a final survey of the double room before unlocking the kitchen door. As the threw it open the first thing that caught his eye was the dumbwaiter door, gaping wide the way he'd left it, and as he stepped across the threshold I shot off at him, "I hid your man in the refrigerator—be sure to look there."

And he pulled open the refrigerator doors!

And he tor doors! tor doors!

J gave the officer a look. This was too much for the Irish in him, and he threw back his head with a guiffaw. I checked him with another look that gave him to understand I thought there was something queer about my other visitor, who, very red now, slammed the doors and faced us.

"I'd have taken my oath that man was here fifteen minutes ago," he extenuated.

"Then he's give y' the slip," jibed the blg officer—"If he was here at all." The tone of, his last words showed considerable doubt.

"It would appear so," replied the other vaguely, and they followed me to my study, the officer, whose sympathles were all with me by this time, telling me heartily. "I guess that'll be all and we'll wish you good morning," and motioner to the Unknown to leave.

QUESTIONS AND ANSWERS.

No Consumptive Inheritance.

If a person in sound health with no consumptive inheritance.

ANSWER—A person has a much better chance of inheriting four hundred million dollars than of inheriting tuberculosis, if that is what you mean. Consumption is never inherited, only acquired through prolonged personal contact with the disease, irrespective of relationships.

What do you consider the best iron for the blood? (E. D. W.)

ANSWER—The same iron that is good for the bedy as a whole—the blood, in health, contains precious little iron. Foods from natural sources furnish the body all the iron it can utilize. It is exceedingly doubtful whether any iron taken internally ever adds one little bit to the blood or its strength. That notion is seldom

THERE are two kinds of lens: one that I gives you legal safety by reducing the strength of the useful light (often endangering driving) - and the crystal-clear, law abiding McKee Lens, that directs the full power of the light down on the road where you need it for safe driving.

The McKee saves all the light that is wasted by the ordinary window glass lens. The intense beam is concentrated and projected through the horizontal prisms close to the road bed for 600 feet ahead and 300 feet on the side. And not a ray of this brilliant beam can go above 60 inches from the ground to blind approaching motorists.

For your protection from the new law and for your own safety's sake equip your car with the McKee Lens. Now is the time to get the McKee. Delay is unprofit-

New York, April 29.—Irregularity characterized the stock market today with light trading prevailing. The market experienced alternate advances and declines during the morning, leaders reacting 1 to 2 points on the first reversal, with a setback of 8 points for General Motors. The second rally was featured by ralls, investments and low priced transportations gaining 1 to 2 points on buying of Reading, Transcontinental and New York Central Independent steels and utilities, especially local gas shares, also stengthened with copper. Another reversal succeeded the opening rate of 8 porcent for call money and advices from the west stating that banks were restricting loans to essential purposes.

Dealings were light and irregular at the opening of today's stock market, reflecting the mixed sentiment of professional traders. Strength was shown by some oils, equipments and ralls, notably Mexican Petroleum. Steel and Reading. This was neutralized by the heaviness of motors, shippings and food shares. Sugars displayed marked weakness. Prices moved forward within the first half hour, however. General Motors and steels took the lead. Preliminary quotations indicated further improvement in the London exchange rate.

Lowest prices were made in the last hour, extreme declines among the more active stocks running from 2 to almost 15 points. There was little support except for standard shares even at marked concessions. The close was weak.

Kill Commissions Proposal
Suggestions of the state highway commission that five county roads not now on the state trunk system be named as tribulary routes to supplement the regular traffic lanes, and that these roads be put upon the county's patrol system, was voted down upon the suggestion of H. B. Mosely, Beloit, of the county highways committee. He stated that should the county, take up this proposition at this time, when it has an extensive program of road work mapped out for the coming summer, it would mean the expenditure of approximately \$10,000 for the purchase of two motor trucks and graders, which the county committee does not recommend. The matter was referred back to committee and postponed indefinitely.

The roads recommended by the state are:

# Quality Goes Clear Through

The undeniable disposition on tho part of the American public to regard the Dort as a particularly desirable car to own is by no means a matter of the moment.

Rather it is a steadily growing preference extending over a period of years that is simply becoming more strongly pronounced as time goes by.

Go back in your memory and you will find that you have always held a very high opinion of the Dort.

If today that esteem for the Dort is much deeper and more definite the reason is that the increasing large number of Dorts going into use is piling the proof in favor of the car higher, and higher, and higher.

Nominated at Chicago

nominate candidates for presultation of the president and draft a platform. Frank J. Esper, national secretary announced today.

The Illinois state convention will be held early in June at Springfield Labor party candidates were elected this spring in more than 50 municipalities in southern Illinois, particularly in the infining districts, he said.

Formad Last November.

The National Labor party was formed here last November by 1200 representatives of farm and labor organizations. Max S. Hayes, Cleveland, is national chairman. Efforts were made to interest the American Frederation of Labor in the party, but President Samuel Gompers opposed participation by that organization in a political movement.

The declaration of principles announces that "the labor party was organized to assemble into a new majority the men and women who work, but who have been scattered as helpless minorities in the old parties under the leadership of the confidence men' of big business."

Favors Nationalization.

Among the planks are: Nationalization of all essential industries; nationalization of unused land; a league of workers to "destroy autocracy, militarism and economic imperialism and bring about world wide disarmament;" repeal of the esplonage law; equal suffrage and enual pay for men and women in Industry; abolition of the injunction power of judges in labor disputes; endorsement of the Plumb plan for rallroad control; steeply graduated income and inheritance taxes; a national budget system; limitation of the supreme court to "veto" legislation; abolition of the United States senate."

#### TWO CLASSES FOR HIGH SCHOOL MEET

Milwaukee, Wis.; April 29.—In a circular sent to high school principals of Wisconsin the board of control of the Wisconsin interscholastic association announces its most important decision in years—classification of high schools of the state, according to enrollment to compete in what will be virtually two meets at Madison, May 29, when the annual track classic of the prep schools of the state is to be held.

Schools having an enrollment of 300 students or over will compromise class A. Smaller schools will be class B and each class will have its own meet, the programs being the same. The meets will be run simultaneously on the track and field of the University of Wisconsin and the winners will not come together in any events.

#### The Iruth About Tire Mileage

Know the mileage of your tires. Otherwise you choose tires by guess Thousands of motorists, by adopting Miller Tires, have increased their average mileage 50 per cent to 75 per cent.

Try at least one Miller on that record, and see what it does for you. Large tire users nowadays subject all good

tires to million-mile comparisons. Millers are winning those contests. And they have become the most talked-about tires in

America. At the factory, Millers are constantly compared with their rivals, and they constantly prove their supremacy. The new Miller treads outwear all others by 25 per cent.

When super-tires are being built, why not find them out? One test will be a revelation. Come and

RUMORS EVERS WILL BUY BOSTON BRAVES

# To the Manufacturer Who Wants to Come Into the Chicago Market

Every national advertiser must sooner or later come into the Chicago market.

Chicago is the Hub of a wheel that includes some sixteen million people.

The Hub is the Chicago market; the Wheel is the Chicago territory.

The Hub itself claims nearly three million of them.

Some advertisers coming into this market for the first time seem inclined to remember the Wheel and forget the Hub.

That is the history of practically every advertising failure charged against the Chicago market. A few big ads are thrown into some newspaper with far-flung circulation, and then the advertiser begins running up and down the spokes of Chicago's territorial wheel trying to put over the hundreds of other cities and towns before he accomplishes anything really worth while in Chicago itself.

You can't put over the Chicago territory until you put over Chicago. The Wheel won't go without the Hub.

If your product fails to go over in Chicago, you will never put it over in Chicago territory.

How is a product "put over" in Chicago?

Just like you'd put it over in your own home town.

People in Chicago are not different from people in the town you live in. There are just more of them, that's all. They eat every day, live every day, and buy every day. And every day of their lives they read some newspaper

which creates in them the inpulse to buy advertised goods.

In Chicago the daily piper they look to in seven cases out of nine is The Chicago Daily News.

Make no mistake about it.

Every successful merchant in Chicago knows this. And practically every store and every dealer in Chicago that advertises looks upon The Daily News as their main point of contact with the Chicago market. Ask them about it if you want proof.

Now you can put over the Chicago territory—the Hub. Any worthy product can get a full demand in this market.

All that you have to do to win the market -and it is a rich one-is to put on a complete campaign and concentrate that campaign in the newspaper that Chicago merchants use, and in the way they use it—adequately.

The Daily News Merchandise Bureau enjoys the confidence and respect of scores of old and new national advertisers all over the country, to whom it has freely given the benefit of its intimate knowledge of Chicago market conditions. It will serve you with the same effectiveness whenever you are ready for such service.

And when you are ready for the Chicago market, keep this fact clearly in mind: You can't do anything with the Wheel until you have finished with the Hub. And remember secondly, that you can't finish the Hub until you use what every Chicago merchant uses consistently and profitably—

# JANESVILLE BARGAIN WEEK OFFERINGS Save \$5 to \$10 on Spring Suits, Coats and Dresses

We know you are interested in some timely truths concerning that new Spring Outfit. A few seasons ago, the purchase of a Suit, Coat, or Dress was a matter of detail—just a small sum of money bought some really desirable wearing apparel.

Today, "clothing is high." It takes a "fat purse" to buy it. All things being equal, we deserve no preference over other retailers. However, we have one unquestiond advantage. Due to tremendous buying and selling capacity, we are enabled to offer STYLES OF THE MOMENT AT VALUES TRULY BEYOND COMPARE. This advantage is yours by your mere promise to pay LITTLE EACH PAY DAY.

Come in this week. Our offerings are bound to interest you and net you substantial savings. Above all, you will find here not only clothing offerings of extensive variety, but a service courteous, reliable, satisfying, that goes hand in hand with the most liberal Easy Payment Plan ever extended ANYWHERE at any time.

THIS COUPON. Worth \$1 In Trade On Purchase of \$10 or More

This offer demonstrates that we look upon the first sale merely as an opportunity to make a permanent customer of you.

We are giving you the full benefits of our savings on early purchases, in the face of the highest prices ever known in the history of the Nation. The values we present are truly sensational and are offered to influence your immediate purchase and to help reduce present high living costs.

# Use Your Credit---It Is Good Here

You can have the kind of clothes you like and be better dressed if you use our dignified CHARGE ACCOUNT Plan. You pay as you earn, and get cash store prices at the same time.

In choosing your home furnishings, you should be very careful that each piece will fit harmoniously into your plan.

Definite knowledge of

what can best be accomplished in home making is our busi-

In Abraham Lincoln's time the Americans fought to protect the American Home; they fought that the nation would remain unified against the entire, world. And again in 1918 the Americans fought to preserve the Home as an American Institution.

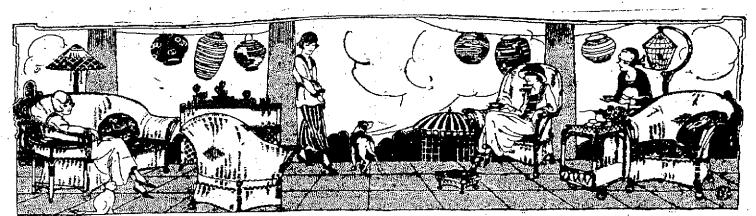

Today we must keep up the traditions of the home, that these brave Americans will

not have fought in vain. It has been well said that there can be no bolshevism among a home loving people.

It has been the influence of the Home that

has made the American lead the world in loyalty and achievement. And cheerful attractive furniture plays an important part in this home influence.

We are unable to offer any great reduction on prices of furniture during Sale Week on account of the present condition of the furniture market in the way shortage of production and a continual advance of prices, but we shall show some odd pieces which will be offered at attractive prices.

If you are considering getting new furniture for one or more rooms or possibly a piece to tone up your room, we invite you to come into our store. We shall not urge you to buy. All we ask of you is to let us know your wants and we shall be pleased to give you prices and then let you judge for yourself, comparing quality with price.

#### SAFETY for YOUR MONEY

It isn't the amount you have—it is what you do with it that counts. Millionaires go bankrupt over night and great estates are built up from small beginnings.

Whether you have \$100 or \$10,000 your job is not only to see that it is put into a safe place, but that it is paying you a profit commensurate with the cost. Naturally you want that profit to be stable and of a minimum amount, and right here is where a lot of folks make a mistake—they overlook the safety feature. They forget that beyond a certain point an investment ceases to be an investment and becomes a speculation, and statistics show that for every single winning in speculation there are 99 losses,

GOLD-STABECK 6% FARM MORTGAGE BONDS are the "happy medium" in the investment field. They combine 100% safety with maximum profit, and this statement is vouched for by the thousands of owners of these bonds, not one of whom has ever failed to receive the interest and principal promotly when due.

GOLD-STABECK 6% FARM MORTGAGE BONDS are secured by first mortgages on large Western Farms and Ranches owned and operated by progressive, successful farmers and ranchmen. They borrow money from us to increase their herds of cattle, sheep and hogs, to purchase larger and better equipment, erect needed buildings or to purchase more land. These bonds offer you the opportunity to share in their profits.

They are issued in denominations of \$100, \$250, \$500 and \$1,000 with interest coupons attached. No matter what amount of money you have there is a GOLD-STABECK 6% FARM MORTGAGE BOND to fit your needs.

"A SIXTY-FIVE BILLION DOLLAR INDUSTRY" is the title of a folder which gives some interesting facts regarding the foremest industry, Agriculture, and a complete description of our FARM MORTGAGE BONDS. We shall be glad to mail you a copy free of charge.
